

ESM Consulting Engineers provides a rewarding and professional work environment while offering planning, civil engineering, and surveying services in the Pacific Northwest. For over 30 years ESM has been a leader in permitting and designing large master planned communities, residential plats, and a wide variety of commercial projects. We are the preferred consulting firm of many of the region's largest home builders, developers, and contractors. To maintain our leading edge, we hire people who are highly motivated, highly skilled, and who always get the job done right.

#### **SURVEY TECHNICIAN – EVERETT OFFICE**

We are currently seeking a qualified Survey Technician to join our team in Everett. The ideal candidate will provide survey related CAD support to Survey Project Managers and the survey department in general. Prepares survey documents according to their instructions. Autodesk Civil 3D experience a must. Familiarity with other CAD platforms such as Bentley or Carlson a definite plus.

#### **EDUCATION AND/OR EXPERIENCE:**

A.A. or A.S. from technical or community college and 1-2 years' experience, or the equivalent combination of education and experience is preferred. Understanding of survey data, points and data collection. Knowledge of coordinate systems and horizontal and vertical datums.

Above all else, ESM Consulting Engineers is a close-knit team of professionals. The successful candidate will have a positive demeanor and be dedicated to the success of the team. In return for their dedication they can expect:

- Excellent benefits package
- Competitive Salary (DOE)
- Great opportunities for growth
- Clear goals and responsibilities
- Be highly organized, self-motivated, and a quick learner.
- Fun office atmosphere

If you meet these requirements, please forward your resume and cover letter to [careers@esmcivil.com](mailto:careers@esmcivil.com)
